PROFESSIONAL SUMMARY

Graduated M.Sc in Computer Science with knowledge within a broad spectrum of technologies and practices, including object-oriented and functional programming, various web frameworks, back-end and front-end, database modelling and architecture design, as well as agile work methodologies.

I aim at self development at many fronts, which include skill and wisdom in the software development arts.

SKILLS

C#

Java

Kotlin

SQL

TypeScript

JavaScript

Erlang

Haskell

DAX

.NET Core

Android

Angular

Play Framework

Azure

Microsoft Power Platform

EXPERIENCE

SOFTWARE DEVELOPER @ GLOBAL BUSINESS SECURITY

Telenor Group, January 2024–Present

- Model and implement relational database
- Create custom Power BI visuals to overcome default capability
- Use LLM for automated data extraction

SOFTWARE DEVELOPER

None, January 2022–February 2023

- Multi-Player Game
- All parts made by me
- Dealt with concurrency in backend
- Full-Duplex communication using Web Sockets
- HTTPS
- Android app

SOFTWARE DEVELOPER

Linkfire, February 2016–December 2016

- Creating internal API hosted in Azure
- .NET framework
- C# language
